EDUCATION

Acropolis Institute of Technology and Research
B.Tech in Computer Science & Engineering (AI & ML)

2024– 2028
CGPA: 7.19 / 10

TECHNICAL SKILLS

Languages: Python, C++, C, SQL
AI / ML: NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow (basics), OpenCV
Web / Tools: HTML, CSS, Git, GitHub, VS Code, Jupyter Notebook
Concepts: Machine Learning, Data Preprocessing, Neural Networks, NLP (basics)

PROJECTS

AI-Based Crop Disease Detection | *Python · CNN · OpenCV · TensorFlow*

- Built a convolutional neural network to classify plant leaf diseases with ~92% accuracy on a 5-class dataset.
- Implemented image preprocessing pipeline (resizing, augmentation) reducing training data imbalance by 40%.
- Designed a simple Flask web interface for real-time prediction upload — demo-ready for hackathon judging.

Smart Attendance System using Face Recognition | *Python · OpenCV · face_recognition · SQLite*

- Developed a real-time face recognition attendance system using dlib's HOG-based face detector.
- Automated attendance logging to SQLite database with timestamp, achieving recognition in under 1.5 seconds.
- Reduces manual roll-call effort by 100%; currently piloted for a 30-student lab section.

ChatBot using NLP (Rule-Based + ML Hybrid) | *Python · NLTK · Scikit-learn · TF-IDF*

- Implemented TF-IDF vectorisation + cosine similarity for intent matching across a 200-FAQ corpus.
- Added rule-based fallback for out-of-scope queries, cutting unanswered responses by 35% in testing.
- Trained on custom dataset scraped from college website; deployable via CLI or Telegram API.

HACKATHONS & COMPETITIONS

Smart India Hackathon (SIH) – Participant

Problem Statement: AI solution for breed recognition for farmers .

2024

2024

COURSES & CERTIFICATIONS

• Machine Learning Specialization – Andrew Ng (Coursera)	2024
• Programming in modern c++ – NPTEL / SWAYAM	2023
• Deep Learning Fundamentals – IBM SkillsBuild	2024

EXTRA-CURRICULAR & ACTIVITIES

- Core member, AI/ML Club – organised workshops on Python & scikit-learn for 60+ students.
- Contributor to open-source: raised 2 PRs on GitHub fixing docs and adding test cases.
- LeetCode: solved 100+ problems (Easy/Medium); HackerRank – 3★ Python.
